

Winpak-Wipak Single Serve Coffee Value Proposition

Winpak-Wipak is uniquely positioned to provide complete packaging solutions for existing and future single serve, on-demand coffee systems on a global basis.

Our expertise in the development and production of both rigid and lidding components for single serve, on-demand coffee systems in North America and Europe make it the only packaging supplier in the world with these capabilities.

Working together, Winpak and Wipak offers global coffee suppliers unsurpassed technical capabilities and a total packaging production base in North America and Europe.

Preformed Cup and Pod Systems

Base Packaging Components

- ▶ Thermoformed Cup Options
 - High Barrier PP
 - High Barrier PS
 - Sustainable Materials
- ▶ Injection Molded Pods
- ▶ Design Consultation

Die Cut Lidding Components

- ▶ Foil Structures
 - Coextruded Sealants
 - Laminated Structure
 - Registered Embossing
 - Printing capabilities – Retort inks, Security inks
- ▶ Non-Foil Structures – Paper, Film

Rollstock Lidding Components

- ▶ Foil Structures
 - Coextruded Sealants
 - Laminated Structures
 - Printing capabilities – Retort inks, Security inks
- ▶ Non-Foil Structures – Paper, Film

Form Fill Seal Systems

Base Components

- ▶ Rigid FFS Sheet
 - High Barrier PP
 - High Barrier PS
 - Sustainable Materials

Rollstock Lidding Components

- ▶ Foil Structures
 - Coextruded Sealants
 - Laminated Structures
 - Printing capabilities – Retort inks, Security inks
- ▶ Non-Foil Structures
