

ADDED VALUE

The Wipak Web Center

THE WIPAK WEB CENTER

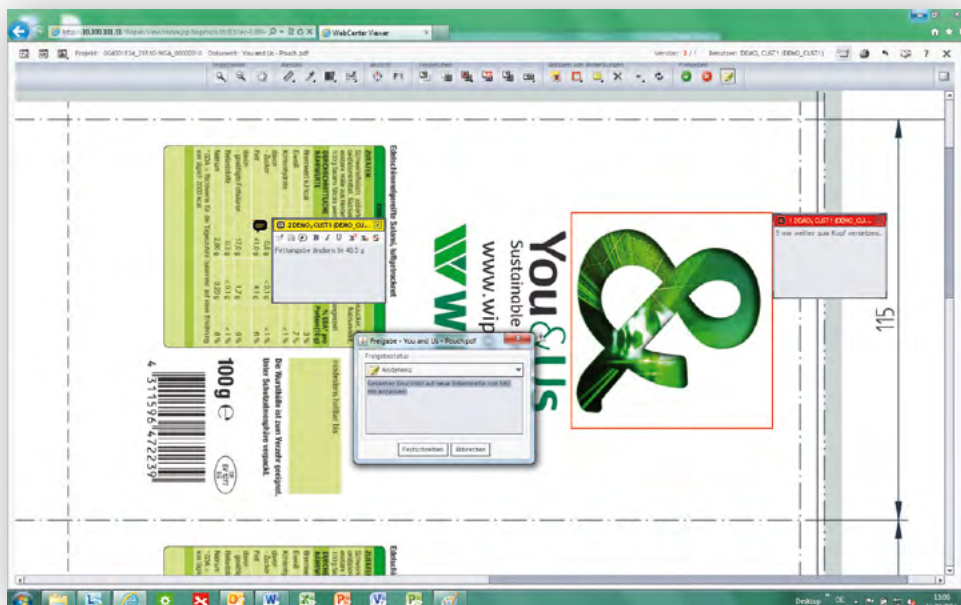

Easy online management of print projects

Approvals, corrections, version comparisons, color values, format data, project history, print image archive, and many other – the Web Center expands the Wipak Group's Pack Design and Film Printing service offering.

What really is the Web Center?

? Answer

The Web Center is an efficient online platform allowing Wipak customers to conveniently manage their repro orders and print images. And even more: if required, the Web Center can also be used as central hub for the common project management. Requirements, targets, tasks, responsibilities, deadlines, milestones – using the Web Center, our customers are able to manage, coordinate, and document their project from A to Z.

What does the Web Center offer?

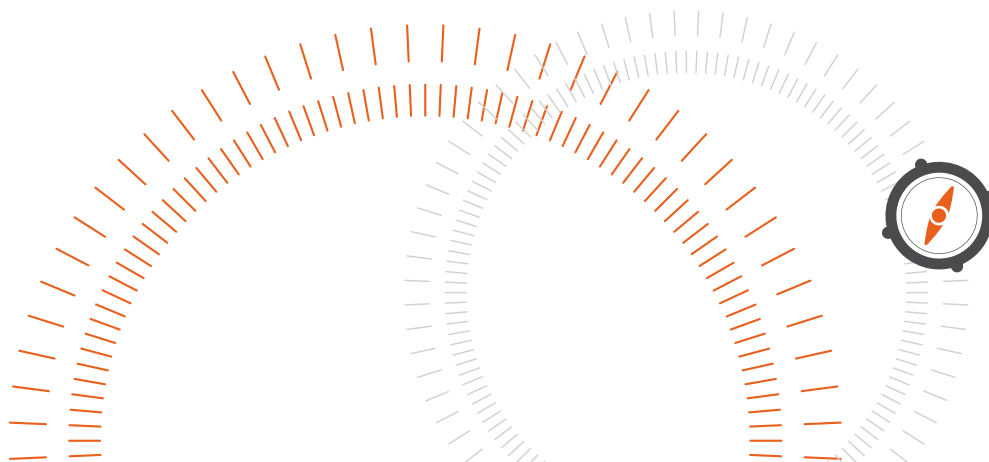

? Answer

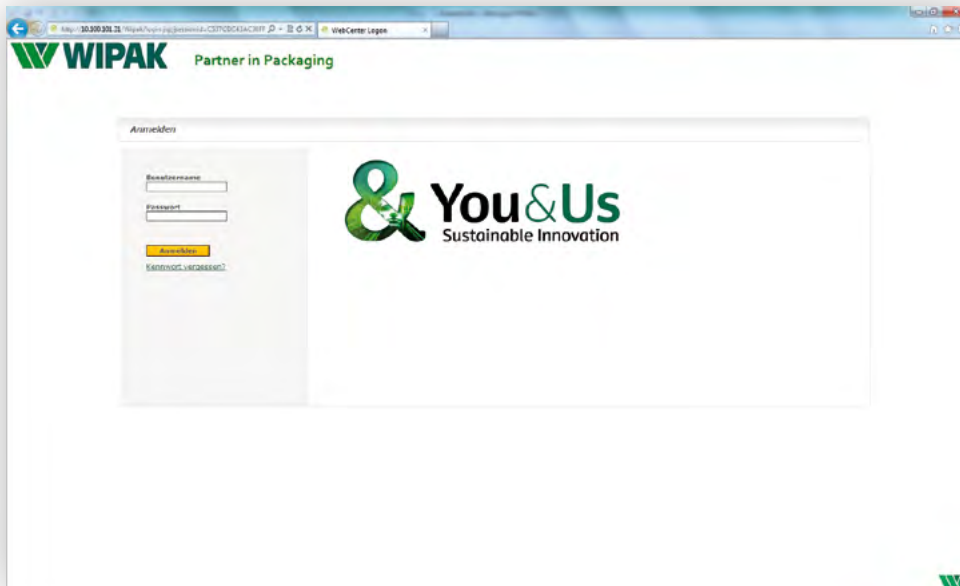

Wipak customers are able e.g. to view, to download, to check, to forward, to comment and to approve print images online. On customer request, the Web Center can however become a useful tool for professional project management. From your agency's initial ideas and drafts to food law examinations, the Web Center includes all basic information and documents.

What are the benefits?

? Answer

The Web Center simplifies and accelerates the collaboration. It is thus e.g. possible to coordinate and approve certain items in real time even across various locations. The Web Center also improves communication since all people involved in a project are always kept up to date. This accelerates and optimizes the entire process.

What are the requirements for using the Web Center?

? Answer

All that you need is access to the Internet. There is no need to download any software and link it to your network. Wipak will send you your personal access data that will allow you to logon to the Web Center.

Is it possible to access this data when travelling?

? Answer

You can use the Web Center via your smartphone or your tablet and an Internet browser. A Web Center app for iPhones and iPads is available, too.

Requirements

- ▶ Internet access
- ▶ Web browser (Explorer, Firefox, Safari etc.)
- ▶ Personal access permission

No installation!
No additional software!
No special knowledge!

Benefits

- ▶ Faster coordination and approvals
- ▶ Easier communication
- ▶ Complete documentation of all print projects
- ▶ Easy operation

How about data security?

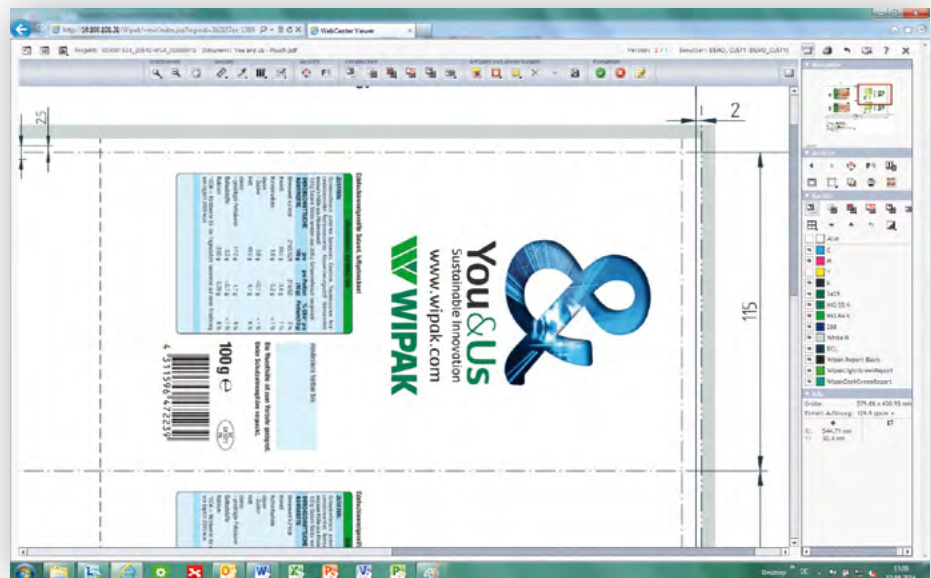

? Answer

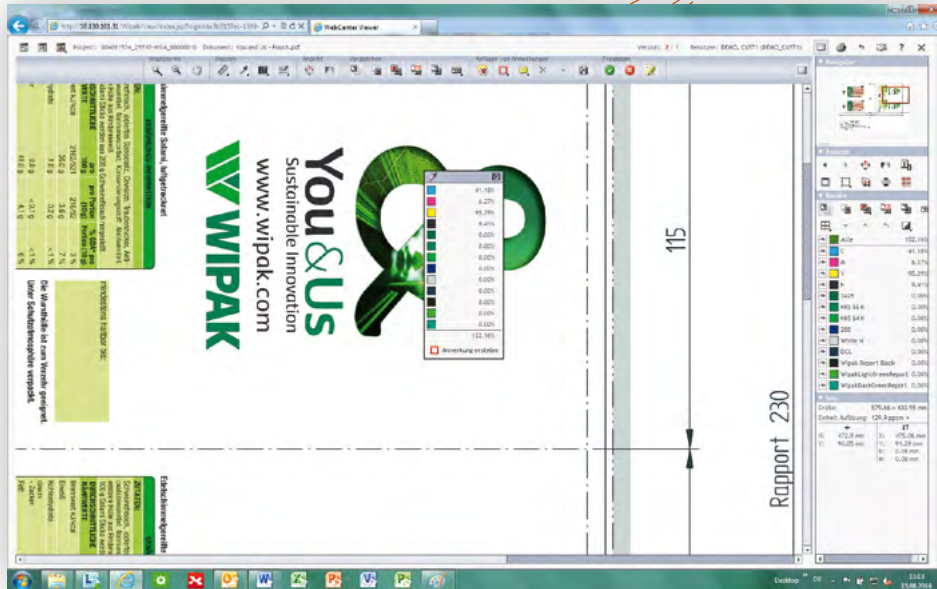

The security of your data is of top priority for us. The Web Center uses secure SSL certificates. Data are also saved constantly; the database and the application server are protected by a firewall.

Who can access the data?

? Answer

Access permission is granted on a personal basis. During the introduction you will determine which employees of your company shall be able to use the Web Center, and also the individual permissions.

Is the Web Center complicated to use?

? Answer

The program is really easy to use. Our product introduction includes a free training on site. During this training, we will explain the key functions, determine access permissions and set up user accounts.

Which type of data is kept in the Web Center?

? Answer

The Web Center contains all information and data related to print and development projects that are implemented via Wipak, such as agency data, latest version in PDF format, format drawing without design.

Some functions at a glance

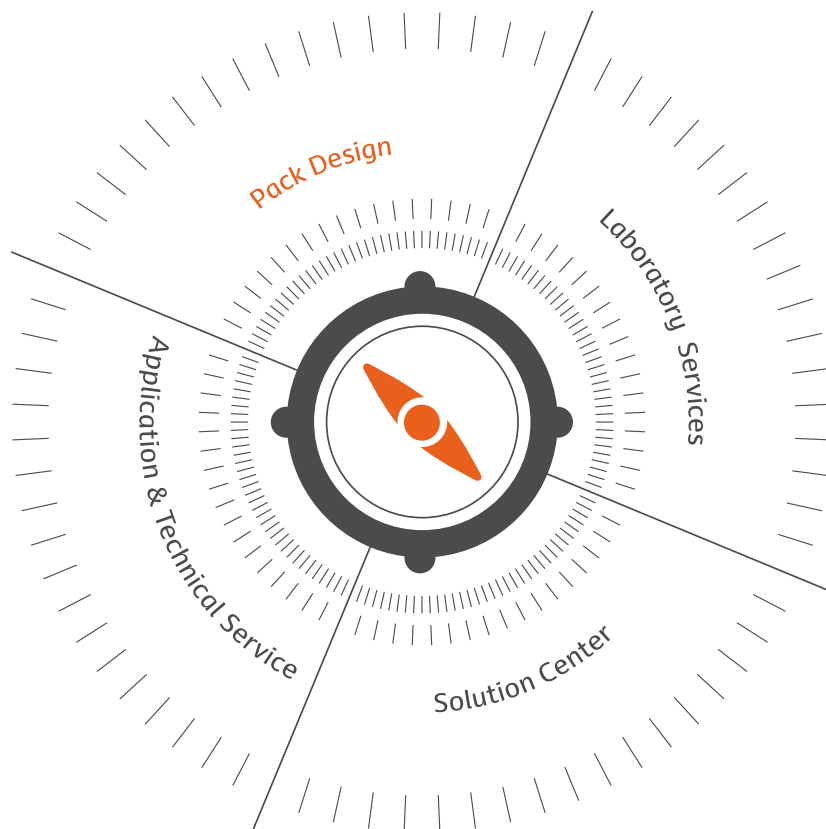

- ▶ Track project status
- ▶ Comment drafts
- ▶ Approve print images
- ▶ View project history
- ▶ Print image archive
